

Cable Bracket Support System

ACB - Bronze

Delta Star offers the ideal replacement for corroded steel wall channels and cable arm brackets - strong, corrosion-resistant bronze components.

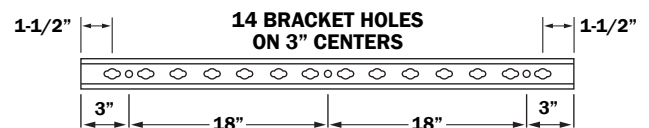

These bronze wall channels and cable arm supports provide reliable stability for heavy cables and are built for long-lasting, damage-resistant performance. Each channel is anchored securely, while the bracket can be easily mounted and adjusted without tools.

The high-density, non-conductive, non-corrosive plastic cable saddle floats on the support arm and is secured with a stainless steel cotter pin, allowing cables to move with temperature changes and preventing surface abrasion.

Side-view of various combinations

CATALOG NUMBER	DESCRIPTION	SIZE
ACB0224	Cable Wall Channel	24"
ACB0242	Cable Wall Channel	42"
ACB0260	Cable Wall Channel	60"
