

Terminal Connectors

FUD Dual Cable to Pad

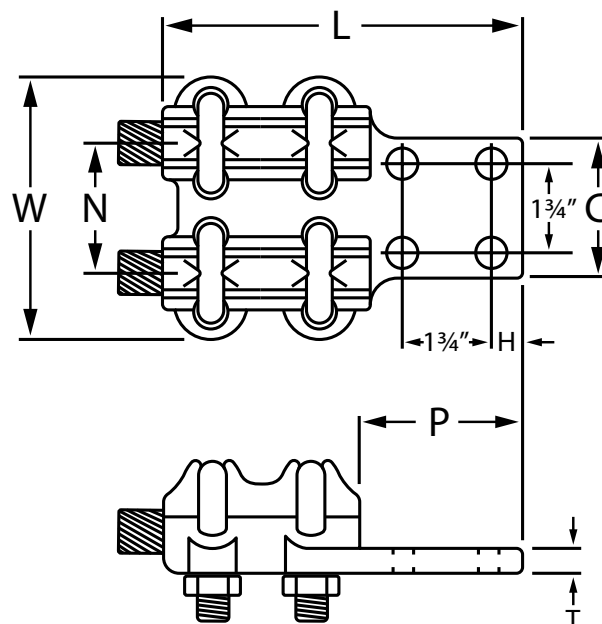

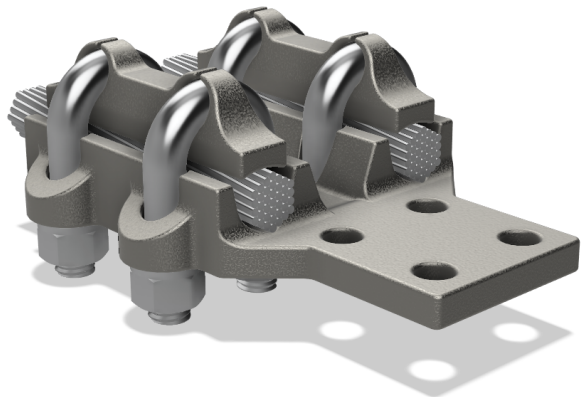

Fig. 2

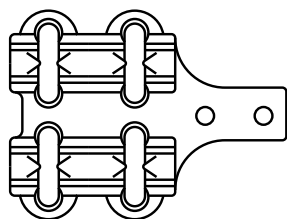

Fig. 1

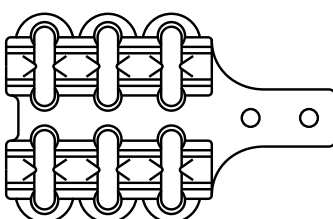

Fig. 3

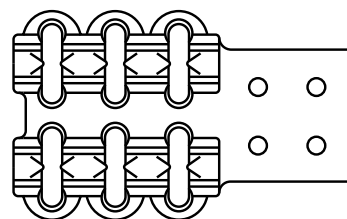

Fig. 4

Using the same principles as the Type "FU", this twin-clamp lug has many applications on disconnect switches for oil circuit breakers, transformers and similar substation equipment. The adjustable yoke permits connection of a wide range of cable sizes in one connector. Terminal pad and cable grooves are scratch-brushed through NO-OX-ID and the connector is packaged in a plastic bag to keep connector clean until it is installed.
