

Welded Connectors

WLU + WLUD Cable to Pad

Type WLU

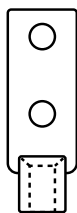

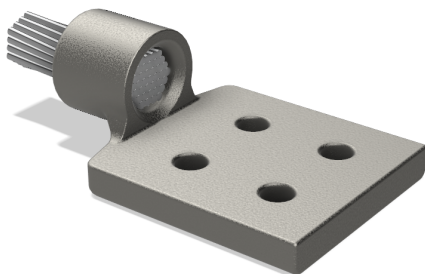

Fig. 1

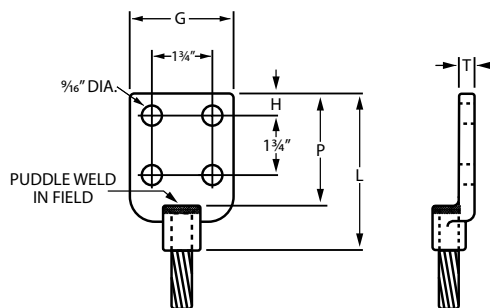

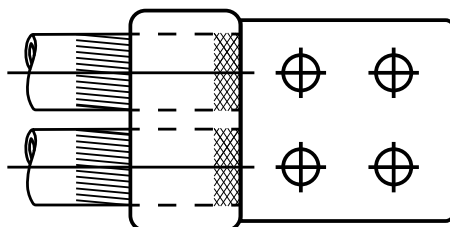

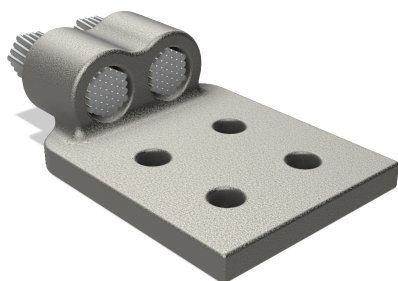

Fig. 2

Type WLU welding terminal lug provides a convenient and lasting means of connecting a stranded cable to a switch or terminal. The stranded cable conductor is puddle welded inside the tubular section of the terminal lug. Similar welding terminal lugs having angles of 45° and 60° are available.

Type WLUD

Type WLUD welding terminal is similar to type WLU except used with two cable. A range of sizes is available.
